PROFESSIONAL SUMMARY

Passionate computer engineering student with a strong drive for programming and web development. Specialized in full-stack development, database design, and creating user-friendly applications. Dedicated to building real-world projects, mastering cross-platform compatibility, and crafting elegant solutions while pursuing my degree.

EXPERIENCE

Passionate Programmer & Student

2024 – Present

Full-Time Learning & Development

Dedicated to mastering full-stack web development and computer engineering principles. Building real-world projects independently while pursuing my degree. Focus on practical problem-solving and creating elegant solutions.

IT Support & Technical Specialist

2020 – 2022

E-Commerce Company

Provided technical support and troubleshooting for online sales operations. Managed system performance monitoring, cross-platform compatibility, and workflow optimization to ensure seamless customer experience.

Sales Representative

2020

Clothing Company

Engaged with customers online and managed sales transactions. Developed communication skills and gained valuable experience in customer-facing operations and digital commerce.

Construction & Home Renovation

2017 – 2019

Independent Projects

Worked on residential construction and home renovation projects, moving furniture and renewing interiors. Developed practical problem-solving skills and attention to detail in fast-paced environments.

EDUCATION

Bachelor of Computer Engineering

Current

University (In Progress)

Focused on software engineering, full-stack web development, database design, and system architecture.

Full-Stack Web Development

2020 – Present

Self-Directed Learning

Hands-on experience building projects with SQL, PHP, JavaScript, and modern web frameworks.

SKILLS & COMPETENCIES

Web Development

- HTML5 & CSS3
- JavaScript
- PHP
- Responsive & Mobile-First Design

Database & Systems

- SQL Schema Design
- ERD Modeling
- Linux, Android, Windows
- System Architecture

Professional Strengths

- UI/UX Design
- Technical Troubleshooting
- Multilingual (AR, TR, EN)
- Project Planning
